Confidentiality Means Profit

It always has complaints from oversea buyers on their Chinese suppliers:

- *I have my product developed in a factory even with confidentiality agreement, but not so long, my competitors offer the same and all other Chinese factories making also the same.*
- *My competitors and customers visit my Chinese supplier and see my production there. So they all know my source and are buying from the same supplier.*
- *My Chinese supplier sells my product to everybody.*
- *My Chinese supplier tells everybody that we are buying from them and use this as their selling point, so I lose my secrecy.*
